

KOPEERKATALOOGIMINE
Z39.50 parameetrid

Antud dokument sisaldab e-kataloogi ESTER Tallinna ja Tartu andmebaasidest ning Eesti artiklite andmebaasist ISE otsinguteks ja kopeerkataloogimiseks vajalikke protokoll Z39.50 parameetreid.

Kopeerkataloogimiseks on andmed vabalt kättesaadavad kõigile Eesti raamatukogudele. Teised asutused võivad andmeid kopeerida kokkuleppel ELNETiga (võtta ühendust aadressil ester@elnet.ee või ise@elnet.ee). Otsingutele piiranguid ei seata.

* Parameetrite seadistamiseks vajalikud andmed on esitatud inglise keeles.

COPY CATALOGING
Z39.50 data

This document contains the data of protocol Z39.50 which are necessary for searching and copy cataloging the online catalog ESTER (both Tallinn and Tartu databases) and the database of Estonian articles ISE.

For the purpose of **copy cataloging**, the data are freely accessible to all Estonian libraries. Other institutions may copy these data upon agreement with the ELNET Consortium (contact ester@elnet.ee or ise@elnet.ee). Currently no limits are set on searches.

E-KATALOG ESTER TALLINN / ONLINE CATALOG ESTER TALLINN
